„For over 40 years we have cultivated the traditions and values of family business. We have been systematically introducing technological innovations which make our cooker hoods work silently, effectively purify the air and bring a warm atmosphere to every kitchen.

My passion is sailing, which teaches us perseverance, humility, discipline, strong character & toughness in the pursuit of a goal. All these qualities are the key to business success, which we have been creating as family"

- Dariusz Malinowski

President & Founder of Maan

Manufacturer
of cooker hoods

www.maan.pl

Polish company

The Maan company is a Polish manufacturer of kitchen hoods.

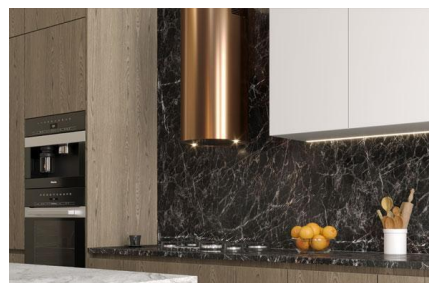

We are happy and proud that we are building the Polish industry, that we employ local workers, that we are able to stay on the difficult market by producing hoods in our beautiful country.

Over 40 years on the market

Our collection of hoods is not only the latest design trends. For over 40 years, we have been introducing technological innovations on an ongoing basis, which makes our hoods modern and reliable.

This period is our pride. We hope that thanks to you we will celebrate the next anniversaries.

Guarantee of quality

The Maan company guarantees its customers the highest quality of all its products.

Thanks to many years of experience and the use of the latest technologies, the company is able to ensure long-term reliability of the products we offer.

Manufacturer
of cooker hoods

www.maan.pl

MAAN has 2 production plants in central Poland, which allows for a perfect connection between both from the center of Warsaw, as well as to the main routes connecting the company with other large Polish cities and abroad

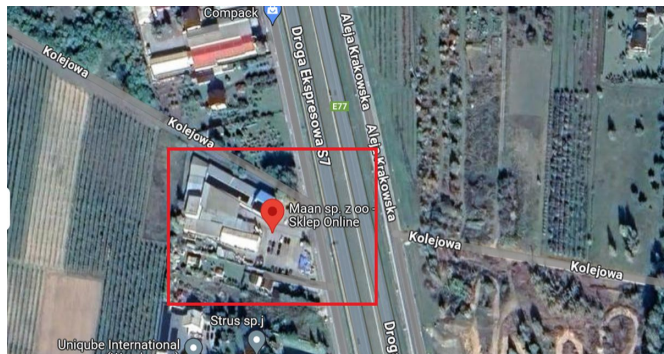

Head office and production plant in Pruszków

Total: 8,171 m²
Production: 4.8990 m²
Warehouses: 2,727 m²
Offices: 553 m

Production plant in Grójec - Podole)

Total: 2,123 m²
Production: 1,717 m²
Offices: 406 m²

Manufacturer of cooker hoods

Production resources enabling execution of Partner's orders

- 2 factories in central Poland
- Over 150 employees
- Laser cutters CNC - **Amada Japan**
- Brake press CNC - **Amada Japan**
- Product Line of powdered coatings **Wagner Germany**
- Own R&D Department

Manufacturer
of cooker hoods

www.maan.pl

Thanks to our own R&D department, we can leverage the extensive knowledge of our engineers.

The MAAN Research and Development Center successfully executes its own projects as well as custom projects for our OEM clients, aimed at introducing new products to the market and improving existing ones.

3P Engineering's state-of-the-art laboratory:

- Performance lab: Boosts kitchen hood efficiency
- Semi-anechoic chamber: Enables self-sufficient acoustic tests
- Continuous testing: Makes hoods more efficient, quieter, eco-friendly.

Manufacturer
of cooker hoods

www.maan.pl

**OEM contract partner
for leading European brands.
Founded 1989**

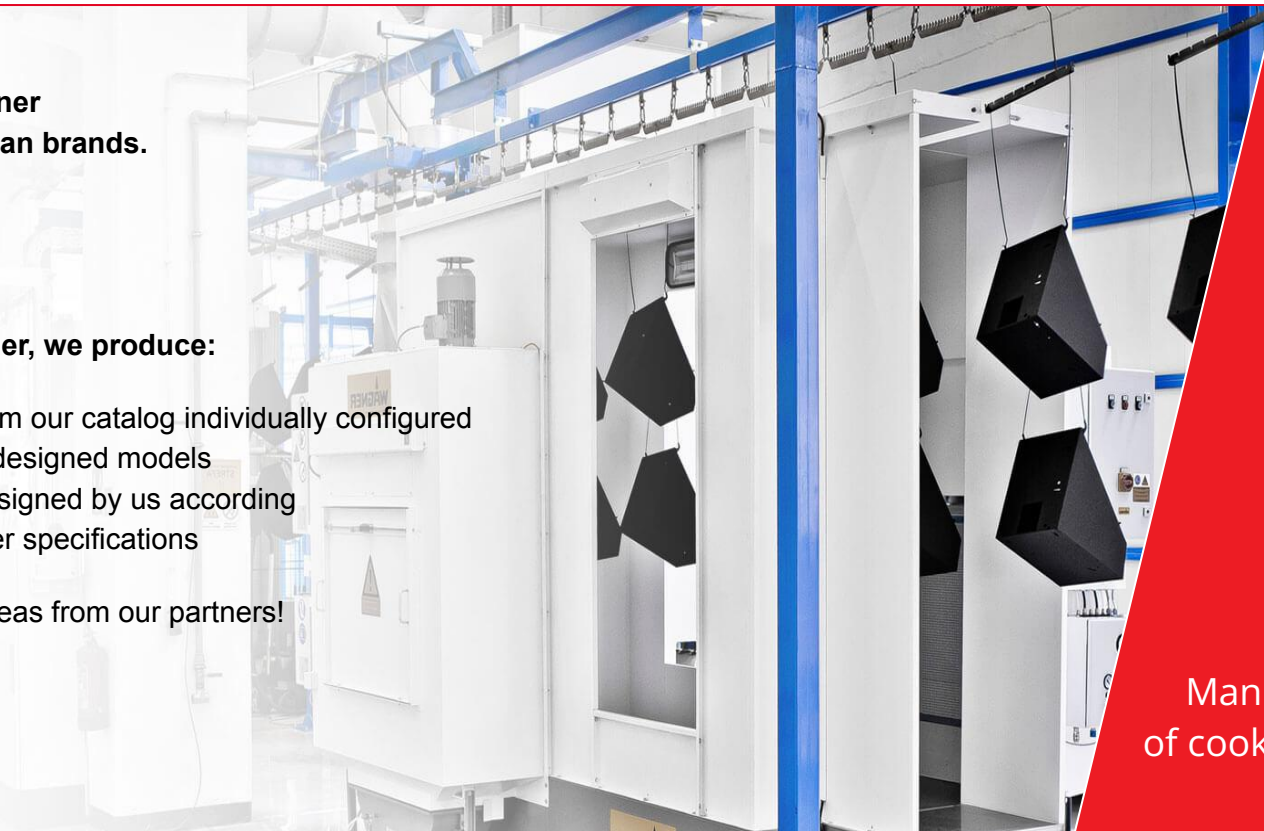

As an OEM partner, we produce:

- models from our catalog individually configured
- customer designed models
- models designed by us according to customer specifications

We are open to ideas from our partners!

Manufacturer
of cooker hoods

www.maan.pl

Model advantage OEM
why MAAN?

- Outsourcing production to an Original Equipment Manufacturer (OEM) can be more cost-effective than handling it in-house.
- MAAN, an OEM manufacturer, offers services that allow companies to access external production capacity and utilize 30 years of expertise.
- Partnering with an OEM like MAAN enables businesses to overcome challenges they may face in producing highly specialized or mass-produced goods.
- Working with an OEM extends benefits beyond immediate needs, providing support for future growth and development.

Manufacturer
of cooker hoods

www.maan.pl

In 2010 we implemented Quality Management System ISO 9001

The ISO 9001 quality management system has been in operation in our company since 2010.

Developed within the system and annually verified procedures encompass fundamental processes, including design, engineering work, production, sales along with after-sales support.

Manufacturer
of cooker hoods

www.maan.pl

In 2023 we implemented Environmental Management System ISO 14001

Certification of the environmental management system, i.e. the introduction of the ISO 14001 standard, a key step in the pursuit of sustainable development and environmental protection, allows the company to achieve not only compliance with legal requirements, but will also bring numerous operational and competitive benefits along with after-sales support.
